Broadcasting Real-Time Auctions

WELCOME TO THE 3RD ANNUAL SERAA AUTUMN EXTRAVAGANZA!

What a year 2026 has proven to be! The beef industry has thrown a lot at us—from record cattle prices and Trump announcing beef imports to packing plant closures and high fuel costs. There's been plenty of chaos and challenges along the way, but I think we all need to keep the focus on what we can control and that is our own operation and the decisions we make in building and maintaining our own cattle herds. With that said, the 2026 SERAA Autumn Extravaganza offers an extraordinary opportunity to invest in some of the top Red Angus genetics that are tailored to work in the local environment.

The consignors in this auction are amazing, dedicated cattlemen and women that are doing a phenomenal job at producing some of the top Red Angus genetics in the world. I would challenge you to find a better set of beef cattle offered this fall anywhere in the region. We have a large group of bulls this year (41 to be exact) and most qualify for the TAEP $3,000.00 program assisted buying program – don't miss your chance to enhance your herd with the use of a Red Angus bull.

The cattle business is tough, and frankly, only the tough survive. If you have the ability to produce or acquire feed and manage cattle, now is one of the most opportune times to build a sound, functional cowherd that will stand the challenges that the beef industry brings. Red Angus cattle are superior to any other beef breed in the world because of their heat tolerance, strong maternal traits, moderation in calving sizes with explosive growth and finally exceptional carcass values with high marbling and ability to grade Choice & Prime. If you appreciate easy fleshing cattle with low input requirements and all of the conveniences of calm cattle that will calve easily and make a great mother cow, then Red Angus is the breed for you.

Please make plans to join the SERAA group on Friday evening at Hagy's Catfish Restaurant. This will be an excellent time to meet the consignors and join the Red Angus family at the SERAA Autumn Extravaganza event.

If you cannot make it to the auction, please feel free to call me, Heather, or any of our buyer reps or consignors for representation of the cattle. You can also bid online through DVAuction and set the bid price at your own comfort level. If we can assist you or answer any questions, we're only a phone call, text or email away.

Best Regards,
Kyle Gilchrist

TAEP OVERVIEW

Tennessee Agricultural Enhancement Program (TAEP)

The Tennessee Agricultural Enhancement Program was established in 2005 to provide cost share dollars to agricultural producers for the purpose of making long-term investments in Tennessee farms and communities. Participation allows producers to maximize farm profits, adapt to changing market situations, improve operation safety, increase farm efficiency, and make a positive economic impact in their communities.

More than $309 million has been invested in 97,855 producer projects from 2005 through 2025. ***Each TAEP dollar generates $6.55 in local economies.***

TAEP FACT SHEET 2026

Programs include Dairy Solutions, Farming Solutions (previously Livestock Solutions), Genetics, Hay Storage, Hay Equipment, Herd Health, Livestock Equipment, Livestock Fencing, Poultry Grower, Row Crop Solutions, Swine Producer, Working Structures & Fence-line Systems, and Producer Diversification (agritourism, fruit & vegetable, honey bee, horticulture, organics, and value-added products).

The annual application period is October 1st – 7th. New application materials are available in late August of each year on the TAEP webpage.

To be eligible for TAEP cost share, applicants must meet basic eligibility and specific program requirements. Each program has a reimbursement maximum. Maximums range from $3,000 to $12,000. The amount of payment is based upon a 50% cost share of actual expenses incurred for eligible program items up to the program maximum. Approved applicants are required to have a current eligible master certification or special requirement equivalent for Producer Diversification at time of reimbursement, not at time of application, to be considered for cost share funding.

Program purchases can be made starting October 1st, which is the beginning of the application period and must be completed by the final reimbursement deadline for the program approved.

Approval notifications are announced in mid-December. Reimbursement packets are mailed in January. The reimbursement packet features approval documentation and reimbursement instructions. After receiving the packet, reimbursement requests can be submitted once the project is completed. Reimbursement requests must be submitted prior to the final reimbursement request deadline for the program approved.

Reimbursement requests include program specific documentation, receipts, project pictures, taxpayer information (IRS Form W9), and educational certification. Each reimbursement request is audited for project eligibility, allowable purchase dates, and the visual representation of the project on the farm. Projects may be pre-verified with a farm visit prior to payment if needed.

Applicants must utilize equipment and structures reimbursed with cost share funds for the intended purpose of the program for a minimum of five (5) continuous years from date of purchase. Site visits relating to the performance of the project before, during and after completion may take place. Site visits may also include verification of program eligibility to ensure applicants meet eligibility and minimum livestock/acreage requirements for chosen program. Providing any false, fraudulent, or misleading information may result in suspension of the applicant's operation, civil litigation, and/or criminal prosecution. Random sample verifications are also conducted annually to ensure project usage from previous fiscal years.

The Tennessee Department of Agriculture (TDA) is grateful to the Office of the Governor and the Tennessee Legislature for supporting the funding of TAEP. This program stimulates economic activity throughout all 95 counties of Tennessee.

TAEP ELIGIBLE BULLS CAN RECEIVE $3000.00!

JBSF EZ Factor N12 is an 18 month old bull that has an impressive pedigree and EPD profile. As you study his pedigree, you will find that he is backed by names like X-Factor 6693D, EZ-Factor 9056G, Golden Oscar 8006, Susie, Della, Covergirl, and Rebals. His dam, Bull Hill Susie 3067, came from the famed "Susie" family at Bull Hill Ranch (SC) that has made such an impact at Bull Hill Ranch and in herds all across the breed. Susie 3067 earned a MPPA of 107. N12's sire, LSF SRR EZ Factor 9065G, is a resident herd sire at Veto Valley Farm (TN), and he is known for his ability to breed heifers and improve carcass quality in his offspring. N12 has 8 EPDs in the top 33% of the breed: ProS, HB, GM, ADG, DMI, MILK, STAY, and MARB. JBSF EZ Factor N12 has a reputable pedigree, a well balanced EPD profile, and he is eligible for the Tennessee TAEP program!

Namath is one of 2 VETO Justified sons we're offering in Savannah. Justified (pictured on the IFC of this catalog) is the first natural calf of our 1810 donor that has been a stand out since a young age and has never had a bad day. See 1810 in our ad on the IBC. Justified sired the $16,000 VETO Lombardi, the high seller of this event in '25. Namath started out with 97 BW ratio going to a 104 YW. His carcass scans are just as impressive, posting 134 IMF and 120 REA ratios. See the footnotes of lot 3 to see how he's been developed. Qualifies for TAEP reimbursement.

The other Justified son we're offering in Savannah, he comes from a black-red carrier dam back to a MGD who is our lone purebred Angus female. She hales from the famed Georgina cow family, his 4th dam is the multimillion-dollar producer, LLA Georgina 419. His numbers have suffered because of the black to red EPD exchange. If you're looking for a female producing herd sire prospect, this stud who combines the Georgina, Flo Marie and Laura families is your answer. He's been developed in our bull grow pasture which is an approximately 15-acre paddock on a 45° hill with feed and hay at the top and water at the bottom. This eliminates feet and structural issues while building muscle and athleticism. Qualifies for TAEP reimbursement.

4740M is a heavy muscled, capacious, virgin 2-year-old ready for service. He's sired the $200,000 syndicated, Nextgen 2807K. 48 paternal brothers to him, including 2 flush mates avg over $9,000 ea in the '26 Ludvigson "All American" Bull Sale. Two of his flush mate sisters avg over $7,000 in the '26 SERAA "Grass Time" Sale. His now deceased donor dam, D6 was recently lost to an injury. She has over 90 progeny registered through RAAA and $400,000+ in progeny sales. See D6 in our ad on the IBC. A maternal sister to 4740M was selected as the $15,000 "Pick of the '25 Fall Born Heifers" by Niobrara Red Angus, NE in the '26 SERAA "Grass Time" Sale, a maternal sister to 4740M is the dam of the $50,000 First Class 4736M and the $35,000 valued all time high seller of the '26 SERAA "Grass Time" Sale, VETO Lakina 924M. See the footnotes of lot 3 to see how he's been developed. Qualifies for TAEP reimbursement.

Sintek Livestock used this long sided, thick, clean fronted, smooth shouldered, and sound made 2-year old Stockmarket son extensively last fall. He was a highly efficient breeder, has a great disposition and is really easy to handle. He is pictured here in his working clothes. He offers a moderate birthweight, with CEM in the top 27% of the breed. He proved to be an efficient gainer, with WW in the top 16% and YW in the top 19%. He is top 23% in Marbling and top 18% in REA. As a frame score 5 bull, he is both big enough and moderate enough. This bull qualifies for the Tennessee Ag Enhancement Program in both the Balanced/Maternal and the Carcass/Terminal categories.

Medal 08N has been an impressive young bull from the day he was born at Hidden Hills Farm. He has grown fast and been a dominant male from an early age. He has nine individual EPDs in the top 25% of the Red Angus herd, including Weaning Weight, Yearling Weight, Average Daily Growth and Ribeye Area. Combine those physical measures with his 3% Herdbuilder EPD and you have a young bull that will put pounds on your steers and add excellent replacement heifers to your herd. His DNA is on file at RAAA, and he is TAEP eligible.

Breeder: John Bell / Hidden Hills Farm, Strawberry Plains, Tennessee 478/235-2687 bell@utk.edu

This Top Tier Grandson is just 16 months and already a solid young bull. With nine EPDs in the top 1/3rd of the Red Angus Herd, Top Tier 14N has an excellent pedigree tied to Red Hill Farms in Tennessee and R.A. Brown Red Angus in Texas. With a 14% calving ease EPD and 8% Herdbuilder EPD this bull will ensure a steady flow of calves from your cows and heifers. And with a top 27% weaning weight and top 29% Marbling EPDs, this bull should produce top quality steers from your herd.

Here is a bull that is age advantaged and a proven breeder. As a coming 3 year old, we have used 461M in our breeding program over the last couple of seasons, with the first calves on the ground now. A son of the popular Duff Red Blood 18114, he is strikingly good looking with his dark red pigment. A true birth to yearling spread bull, with a 15 CED and -1.4 BW, to go with a 73 WW and 120 YW epd. Actual data reads just as good with a BW of 82 lbs and YW of 1254 lbs. this is a bull that is ready for heavy use. Qualifies for TAEP

A late addition to the sale, HB Nandino 596N did not get pictured, however he certainly deserves one. This high performing yearling bull has all the bells and whistles. He is stout made, structurally sound, attractive looking, all while combining performance and doability. Sired by RREDS Mr Rushmore and backed by one of the most proven cow families in the breed (Red Soo Line Annie 7249). Be sure to reach out with questions, we will be sure to have pictures and videos before sale day.

After returning home from last years sale, these two brothers were standing together and right then I decided I wanted to bring these two back to this years sale. Uniformity is the name of the game, and what better way to add it to a group of cows than full brothers. These bulls are sired by Duff Red Blood 18114 and out of our most proven donor HB Miss Pride 8118F (H2R Profitbuilder). Dark red, sound feet and legs, stout and attractive are some of the terms I would use to describe these bulls. These are two brothers that can go to work in any operation. Top the feeder market or keep the daughters in your replacement pen, they are ready to go to work. All three qualify for TAEP.

The kind we are striving to produce! We couldn't be more thrilled to offer one of this quality this fall. This 2 Year old dark red, great footed bull's mother is a favorite STRA Relentless daughter at our place that is a picture of functionality. Pair his correct structure, moderation and bold body shape with his square, dense build and he is destined to make your next great set of females. His maternal focused numbers agree, he is top 3% ProS, top 2% HB, and double digit calving ease.

M103 is a big-bonned, heavy muscled bull with plenty of power and performance. Starting with an actual birth weight of 48 lbs, he went on to post an 82 WW {top10%}, 137 YW {top 7%}, and .35 ADG {top 6%}. He ranks in the top 4 % for ProS, top 2 % for GridMaster, top 5% for Marbling, and top 13% for Ribeye Area. M103 combines light birth weight, explosive growth, heavy muscle, and outstanding carcass merit in one impressive package.He should improve your register cows.

N498 is the kind of bull to make you go WOW! He is a thick, big-boned, deep-sided, structurally correct, curve-bending bull that will sire calves that perform and smash the scales down. Starting with an actual BW of just 63#, he explodes into exceptional growth with an 89 WW and 146 YW, both top 4 %, along with a .36 ADG, top 4%. HE ranks in the top 7% ProS, top 1% GridMaster, top 5% marbling, top 4 % carcass weight, and top 3% Ribeye Area. His actual ultrasound data backs it up, posting an impressive 4.36 IMF and a 15.5 Ribeye Area. N498 is a powerful choice for adding pounds, muscle, and carcass value to your calf crop. This bull is every bit as good in person as he is on paper.

Here's a Checkmate son that can blow the numbers off the weigh scales! Not only do his epds show his potential with a 90 WW and a 136 YW, but his actual performance proves him out with a 71# birth weight and a 827# AWW. Don't sell him short for calving ease…71# birth weight, a 13 CED and a -2.1 BW epd. He also carries better than average maternal traits and comes from a cow with a 105 MPPA. Show him to your cows and heifers and he will make you smile when his calves come.

What an absolute tank this dude is! This is a bull with a lot of power, and he will sire calves that will sure enough push the scales down. His dam is a flawless female sired by the great Andras Executive Order E018. He is one of the very best female making bulls I have ever seen, and his daughter continues to produce cattle that are stand outs, just like this bull here. If you sell your calves by the pound Grindstone 828N will be hard to beat.

Here's another Bieber Jumpstart son out of a C-Stony cow that is nicely made. He's moderately framed, with an attractive set of numbers to go with him. He will make a great heifer bull but will also sire females that will make good replacements.

Here's probably my favorite bull out of the group that we are offering this fall. Jumpstart 813N comes out of our great Omak cow family that has always raised some top-notch cattle! This bull sure has a lot to offer, he's right at the top of the breed for WW, YW, and HPG. If you're looking for a bull to keep females out of, you'll sure love the cows this bull will produce, longevity and fertility are bred through this bull. His dam was in production until she was 11 years old and never missed a calf nor missed a breeding season.

We purchased Katie as a bred female from Twin Willow at the 2024 Missouri Show-Me Reds sale. Katie produced twin heifers that sold exceptionally well, in the 2026 Missouri sale, with one being the 2nd high seller. We are retaining her third heifer, born October of 2025. Katie's offspring have been moderate framed, structurally very correct and attractive. Katie was Pasture bred to Lacy Red Warrior 065M, RAAA# 5078375 or Veto McGraw, RAAA#4936600 (a Duff Red Blood son). Katie should calve between December 5th–15th, 2026

Sintek Livestock purchased Holly 032H as a calf in April 2021. Holly is Lacy Red Angus bred on the cow side and the sire is Alt Regency. Holly 032 has done a good job for us, She's the grand-dam of a young calving ease bull that we will use on heifers, following A.I. Holly is big bodied, deep sided, wide based, yet a moderate framed 6-year old female. She boasts the top 6% of the breed in ProS, the top 3% in Herd Builder, the top 6% in STAY, the top 18% in YG and the top 15% in Fat. As an added factor, she fully sheds off for the summer Holly was pasture bred on March 29th to SL E119 Stockmarket 2408, RAAA# 4982687, and will calve between December 29, 2026 to January 8th, 2027.

5911 is a very nice representative of the well- known Emily cow family. She shows great length and extension, good individual performance, and 7 epd categories in the top 35% of the breed including a hard to come by 63HB and a 19Stay. She features a very nice genetic package being from the being from the Bootjack Emily cow family and out of Chappell Renegade who was a sale feature in Chappell's 2023 sale. She sells bred to VVF First Class whose semen is not on the open market. This is a great opportunity to cash in on some his genetics. 5911 should calve in Feb. or March 2027.

JBSF Alexis 107 N27 is a long spined Sept. '25 open heifer that is ready for your fall breeding program. She stacks Eastwood 3284 on top of New Direction R240, making her a very maternal package. Her sire, Feddes Eastwood 3284, is the TAC Drifter H10 son at ABS who was the high selling bull in the Feddes '24 sale. N27 has 8 EPDs in the top 33% of the breed (ProS, GM, CED, BW, CEM, STAY, MARB, and CW). Buy with confidence that Alexis N27 will stay in your herd for a long time and will produce progeny that will do the same.

Ones like this are so hard to let leave the farm. Her dam and grand dam continually do a great job for us year after year. The Strategy K038 daughters continue to be phenotypically right, low maintenance females. Don't discount her young age, she weighed 732 on 9/17/2026. Her set of epds and indexes are really stellar too. . . with 12 of those in the top third of the breed and 7 of those are in the top 15% of the breed.

What a sweet nicely made dark red heifer. Her sire has been producing some phenomenal females for us and she will be the same. Her dam carries a 100 MPPA in the herd and her very balanced epds predict that she will do the same or better. Although young, she weighed 730# on 9/17/2026 so take her home and breed her to the bull of your choice.

TERMS & CONDITIONS

TERMS: Terms of the sale are cash, check, or other terms agreed to in writing between seller, buyer, and sale manager payable immediately upon conclusion of the sale before animals will be moved. Sale Manager reserves the right to require a certified check as settlement before releasing any cattle.

PURCHASER'S RISK: All animals are the owner's risk prior to their sale and become property of the purchaser as soon as declared sold by the auctioneer.

BIDDING: Any disputes or challenges regarding bids or tie bids will be settled by the auctioneer and his decision will be final.

CERTIFICATE OF REGISTRY: A certificate of registry for each animal will be transferred to the buyer at the seller's expense.

ANNOUNCEMENTS: Any errors or changes in information contained in the catalog will be announced from the block and such announcements shall take precedence over the information contained herein.

HEALTH: All animals are eligible for interstate shipment. Interstate health papers prepared by an accredited veterinarian will be furnished on each animal sold. Arrangements for international shipment should be made with the sale manager prior to the auction. All efforts for the exportation of cattle can be arranged through the sale manager.

BREEDING GUARANTEE: All animals are guaranteed by the seller as outlined in the Red Angus Association of America Code of Ethical Sale Practices.

LIABILITIES: All persons who attend the sale do so at their own risk. The seller, auction facility, and sale manager assume no liability for any accidents that may occur. Neither does the seller, auction facility, or sale manager assume liability for the loss or injury to livestock due to theft, mysterious disappearance, sickness, improper handling or Act of God. It is to be clearly understood that the sale manager and its representatives act only as a medium between the buyer and the seller. They are not responsible in any way for the failure on the part of the buyer and seller to live up to their obligations or for the truth of any warranties or representation, express or implied. Neither does the sale manager assume any financial obligations to collect or enforce collection of monies between parties. Any legal action, that may in exceptional cases be taken, must be between the buyer and the seller. This catalog has been prepared by the Sale Manager from pedigrees and information supplied by sources deemed reliable, however, the Sale Manager will in no way guarantee the pedigree, percentages of the animals selling, or data included in this catalog. Any exceptions taken are between the buyer and the seller.

CONTRACT: The above terms and conditions of sale shall constitute a contract between the buyer and seller of each animal and shall be equally binding upon both. Each sale or resale of an animal constitutes a separate transaction.

PHONE BIDS: Telephone bids will be taken by the sale manager. Kyle Gilchrist's cell number is (641) 919-1077.

Easy keeping heifer with a 691 Adj WW. Profit Builder on the top side with Bieber Spartacus and Leland Marksman on the bottom side..... All genetics that have left their mark on the Red Angus breed. Top 20% ProS, Gridmaster, WW, YW and marbling to put on the pounds and add value.

Breeder: Buddy & Michelle Hinson / Hinson Red Angus, Harrison, Arkansas 317/294-7996
buddy.hinson@unitedanh.com

LOT 66 – HINRA 2614 L08 PB

35+ YEARS STRONG. BRED FOR THE ROAD AHEAD.

For nearly four decades, the Bull Hill Ranch team has built its Red Angus program on performance, hard work, integrity and dependable customer care. Through changing times and generations of cattle, the goal remains the same – raise adaptable, functional Red Angus that work for real-world cattlemen.

Lot 67 — 1 SPRING BRED

Breeder: Jimmy Whitley, Horton, Alabama 205/359-0154 whitfeed@hopper.net

Nice dark red commercial heifer bred to VVF First Class due to calve in early spring 2027

Lot 68-73 — 6 SPRING BRED

Breeder: Randall & Donna Phillips / Phillips Farms, Crossville, Alabama 256/960-6466 dphillips@farmerstel.com

Lot 74-78 — 5 SPRING BRED

Breeder:Jed Dixon / Dixon Red Angus, Athens, Alabama 256/614-4212 jdixon@dixonstables.com

Here's a really nice set of 5 commercial red angus cows that are 4-8 year olds that are due to start calving April 15th for 35 days due to LSF BJR Money Line 2805K(#4580763). This set of cows has done a great job for us and will continue to raise great calves for years to come. Three are due with heifer calves and one with a bull calf and one unsexed calf.

Lot 79-83 — 5 OPEN HEIFERS

Breeder: Stacy & Debbie Broadhead / Broadhead Brahmans, Mendenhall, Mississippi 601/906-2148 stacyb100@bellsouth.net

These Brahman X Red Angus heifers are made for the southern U.S. They provide hybrid vigor with maternal traits to get you as good a female as you desire. Also, we are still hitting our marbling targets in the feedlot. These heifers are just as good on the inside as they are on the outside!
